Mr. and Mrs. Johnson plan to rough it around the country until they get tired of sypsy life. They expect to return to Norfolk within a week or ten days and begin a tour of the south. They have prepared themselves with complete camping outfits and will begin their journey afoot.

WHAT A SEMINARY GIRL HAD TO KNOW AND DOBACK IN 1834

Despondent over ill health, Mrs. Elisabeth Erety Beatty jumped from the second floor of the Orrington hotel in Evanston yesterday morning in an attempt to commit suicide, but was saved from death when her fall to the pavement was broken by an awning.

Mrs. Beatty left her home at 2507 Ashland avenue, Evanston, while her husband, Vernon D. Beatty, an advertising man, was sleeping in an adjacent room.

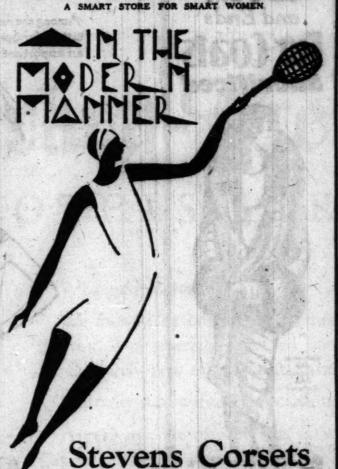

Arriving at the Orrington hotel, she took an elevator to the top floor. A few minutes later her body struck the pavement on the Orrington street side of the hotel. It is supposed that after being taken to the top floor she walked down to the second floor to make the jump.

Mrs. Beatty was taken to the St. Francis hospital where it was found that several ribs had been broken and that she had suffered possible internal injuries. Doctors said that she probably would recover.

CLOTHES FOR MEN

What would you do?

We found that one line of clothes stands head and shoulders above all the rest. It is generally conceded among clothing experts that these clothes set absolutely new standards in garments available for immediate wearing.

Naturally, we wanted this clothing for our stores wouldn't you?

A year ago, we reached this decision and laid our plans. And today the Capper & Capper stores present the finest clothes made—Hickey-Freeman Clothes for Men.

Hickey-Freeman are specialist tailors who have the ability, the genius the painstaking thoroughness to add to the finest fabrics procurable the highest degree of skill known to the tailoring art. And they have put at our service all the resources of their great organization in producing the clothes now on display in our store.

We have never had anything that we could show with more pride, or recommend with more earnestness.

They bring to Chicago a display of Spring styles for men so complete, so authentic, that it will be of exceptional interest to men who give careful thought to their appearance.

They comprise a notable collection of fine fabrics, of a quality, variety and attractiveness rarely assembled in one display.

And, above all, they are a unique demonstration of what unstinted hand needling can contribute to the comfort, style and beauty of men's clothes.

You ought to see these Hickey-Freeman Clothes. Their appeal cannot be covered in a few sentences. They are now on display in all of the Capper & Capper stores. They are tailored expressly for Capper & Capper. They are America's finest clothes.

The art of gracious living is well exemplified by this charming room for the young girl built, furnished and decorated by Delineator Home Institute to

"THIS," exclaimed a recent visitor to the Institute, "is the living Delineator!" How better could we express the essence of Delineator's service to its readers?

Delineator is doing what other magazines have talked about. It is not difficult to idealize the art of gracious living in words and pictures. But Delineator Home Institute builds, furnishes, decorates, cooks, serves, washes, cleans—before it talks. It has made the art of gracious living real and practical and feasible in cost.

NEVER in the history of publishing has there been offered at any price a magazine that covers the field of women's interests so completely, or in so thoroughly practical a way as Delineator does today.

If we find, for instance, that large numbers of Delineator readers are interested in the young girl's bedroom—presto! Delineator builds, decorates and furnishes a real room that is complete in every lovely little detail—such a room as any girl might dream of owning—yet practical in use and reasonable in cost. Thus it is that Delineator seeks to further in every way

#### The Art of Gracious Living

IN America today the Four Hundred has become the Four Million. The art of gracious living is no longer limited to a few great cities. Delineator predicts the coming sway of French Provincial furniture—and Waco, Texas, asks where to buy and how to use it. Boise, Idaho, wants to serve broccoli and artichokes—Delineator gives practical, tested recipes. Bangor, Maine, is interested in better table silver and china—Delineator's Normandy Dining Room provides the proving ground for fascinating, illustrated articles. Flagstaff, Arizona, asks how the uneven hem-line will affect the length of Paris skirts—and Butterick, style authority of the world, through Delineator gives the authentic answer.

Inexpensive materials plus practical good taste resulted in this luxurious bed—Set in an alcove between two ventilated closets, equipped with inscrious arrangements for hats, shoes, evening dresses, storts wear, etc.

## DELINEATOR HOME INSTITUTE

The Delineator reader knows what Paris wears the day that Paris wears it. She lives a gracious life in a home of restful beauty. The pages of Delineator are but a reflection of her many interests. And Delineator Home Institute is her proving ground for new ideas that further the art of gracious living.

Commissioner Caldwell and his considerable following have denounced the Davis scheme as "inequitable" and one bound to destroy the present broadcasting structure. There's an Interesting Story in Every Genuine ORIENTAL RUG

An Oriental Rug is more than a floor covering-it is a work of art—the symbol of its weaver's devotion and religion.

These hand-woven rugs from the far East have a romance and mystery about them which is explained only by the deep significance of their patterns-for every device, every leaf and flower hides a story.

In the Pushman collection there are rugs whose designs are identical to those found in the ruins of ancient Egypt and Chaldea. There are Kashan Rugs with the Tree of Life and its seven branches - representing the seven days of creation; old Ghiordez Prayer Rugs with whole prayers woven in their borders; golden Chinese Rugs whose fiveclawed dragons once graced an Emperor's palace; Turkish Rugs whose geometrical designs tell of their weavers' devout Mohammedanism; Rugs whose graceful flower patterns and realistic animal forms bespeak their weavers' love of nature.

All these and more - many rare antiques and interesting moderns - may be seen in the Pushman collection, and a cordial invitation is extended to you to browse among these interesting exhibits and ask questions. You will not be urged to buy.

OUR SERVICE DEPT. was established primarily to care for Rugs bought in this store. It is in charge of men highly skilled in the cleaning and repairing of Oriental Rugs. They know how to retain and restore the life and brilliance of Oriental dves and preserve the Rug

**ELECTION FEUD** FOR BOMBINGS

Rivalry for offices in the Sign Hangers' union was blamed by police for two bombs expleded early yesterday morning. The bombs were thrown at the Osgood Sign company, 3549 North Clark street, and at the bungalow of Malcolm Purves business agent of the union, at 5385 South Mesart avenue. An election of officers is to be held this month by the union, the police learned. Purves' home is believed to have been bombed to discourage him from being a candidate for reflection. Purves' prother, William, a sign painter, said that he could name the man who caused the bombing, but he refused to repeat it in a statement to the New City police.

# 100,000 More LIBERTYS Every Week and Still LIBERTY is OVERSOLD

EGINNING with the February 18th issue, LIBERTY increased its print order 100,000 copies weekly. We are now selling more than 1,500,000 copies of LIBERTY each week through news-dealers. And still we are not printing enough copies to meet demand. We could sell 2,000,000 copies a week. Let us explain why we do not.

TOR 1928, LIBERTY guaranteed its advertisers an average net paid weekly circulation of 1,350,000 copies from January 1st to March 17th, and 1,450,000 copies from March 24th to the end of the year. LIBERTY'S advertising rates are based on this circulation. But since February 18th, LIBERTY has been delivering more than 1,500,000 net paid sales each week. This added circulation comes out of LIBERTY'S pocket.

INCLUDING overhead, it costs 131/2 cents to produce an average copy of LIBERTY. The dealer pays us 31/2 cents; you pay him 5 cents.

ADVERTISING enables you to get a 131/2-cent magazine for 5 cents. But advertising pays the difference between this 131/2 cents and 31/2 cents only on a stated quantity of circulation. We can not ask the advertiser at once to pay for 500,000 more circulation to meet public demand.

T TOWEVER, LIBERTY will not stop with this increase of 100,000 copies but will continue to grow. Meanwhile, we intend to keep our advertising rates at a conservative figure-and at the same time keep well in advance of advertisers' actual buy in net paid circulation.

ECHNICALLY, it may not be said that the Irish Players last night made known "Juno and the Paycock" in Chicago: actually, they did just that. So far as Sean O'Casey and I are concerned, this was the first performance of the comedy in this city. In the brilliant light of what the Dublin actors do with and in (and for) the play, last year's ballyhoo about the performance of it in the Goodman Memorial seems even more off. If possible, the deferred program will be played April 15.

All of this woman's children have been brought up in the church—Sunday school, choir, and regular services. It has been part of their lives. The other day she said to me: "I want to tell you something that I think will interest you. I've just discovered that Robert—he's 9, you know—is an atheist. I've no idea where he got it, but he firmly states, 'There is no God.'"

sn't it fascinating to see children in same family, with the same hered-brought up under the same roof, i the same influences, develop so and the same influences, develop so differently? Of course it's been there all the time, that difference, and as they grow up it becomes more marked. Sometimes the differences are striking, sometimes they're more subtle. But it all goes to emphasize the point I made in last Sunday's article—that you not only shouldn't try to make your children over, but that you won't succeed if you do try, even though you may change the exterior. They are so es-sentially, so intrinsically themselves— made of their own particular clay. Copyright: 1928: By The Chicago Tribun

Meat Heated in Jelly. Cold boiled ham heated up in a little Cold boiled ham heated up in a little butter and currant jelly is something dainty enough for the most fastidious eater. Slices of mutton had much repute when seasoned and flavored with currant talks in the agreement.

when seasoned and flavored with currant jelly in the same way.

But to do such work requires judgment and perhaps something rarer yet when related to food matters. There must not be an excess of the jelly, nor hardly more of it than there is of butter. We would advise especial care in doing this for the first time, partly because it is so easy to feel a distaste for the unusual, yet more and more today fruit is being used with meats—pineapple with ham, fruit julces or raisins in ham sauces, apricot halves with veal, etc.

raigins in ham sauces, apricot halves with veal, etc.

Not so very long ago the organization so much interested in promoting the nice and wide use of meats sent out a recipe for a baked ham alice with glazed apricots. A glazed fruit is in a sense jellied fruit. This recipe, which we have not tested, read:

"One slice of ham one and one half inches thick, one cup of milk or friut juice, eight to ten apricots, fresh friut juice, eight to ten apricots, fresh or dried, soaked several hours, onehalf teaspoon prepared mustard, one-half teaspoon pepper, one-fourth cup

half teaspoon pepper, one-fourth cup sugar. Wipe the ham and place in a shallow baking pan or casserole. Rub the surface with the prepared mustard and pepper, and liquid and bake forty-five minutes in a moderate oven.

Meanwhile, cook the apricots in one cup of water and the sugar, slowly, until the water evaporates and the sirup thickens. Place the apricot halves on top of the ham, add the sirup, and continue baking the ham fifteen minutes longer or until the apricots turn a light brown and become glazed in appearance."

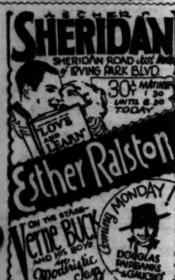

sert courses were never more popular than just now, and when a slice of meat is heated up in jelly it, too, is glazed. If you have not tried it, do, and we hope you will not be sorry. This treatment freshens the meat as well as glazes and seasons it.

This dress is cleverly designed to suit the needs of the larger woman—the swathed girdle giving a snug hipline with a slight blousing to the bodice. The box plaits across the front of the skirt are chic, and crêpe satin, plain and printed sheer crêpe, and two tones of silk crêpe and light woolen are smart suggestions.

The pattern, 3341, comes in sizes 16 years and 36, 38, 40, 42, 44, 46, and 48 inches bust measure. Size 36 requires 3½ yards of 40 inch material with ½ yard of 32 inch contrasting.

Physicians say that the one dependable protection is to give your baby cod-liver oil regularly every day—because good cod-liver oil is the richest known source of the essential Vitamins A and D.

And thousands of them say, "Give Squibb's Cod-Liver Oil," since it is so exceptionally rich in these protecting Vitamins.

They prefer Squibb's, too, because it is all cil; unmixed with any diluting substance. And Squibb's never loses its effectiveness with age.

You can get Squibb's Cod-Liver Oil at all reliable drug stores. For your protection insist on Squibb's Cod-Liver Oil.

Male Critic Hates to See 40 Years Dressing Like 20

I actually burn up when I see some me about 40 years old, or 35, as far that goes, dressing like a girl in her ms and twenties. You see them liking down the streets with dresses to their knees, hennaed hair and see FAT ones with flesh colored hose sking their legs look like plano legs say choose bright colors for street ar and think they are the picture of uth. But look at their faces—inkles, lines, sunken eyes. They we everything that personifies age in eir faces, but in their heads they we the nerve to believe that preset day styles make them young again. "They've had their youth. Why it let the girls in their teens and renties have theirs without any of is silly competition?" I'm not a woman hater, but it rtainly lowers a man's estimation a woman of 40 when she tries to sk half her age. Why won't she her age? There are women who lopt the styles that belong to their ars. They have a beauty these others wen't; they're refined. And that cerinly helps to make a woman beauth. They're not fooling the men. Who they thing they are kidding?

"A MALE CRITIC."

If you want to know why women are unwilling to look, act and dress their age, Male Critic, it's your sex you should be interviewing. You men are responsible. You want 'em young and flipperish, if not flapperish. At least, that's the rumor that's got about and caused more haircuts than were good for heads.

Personally, I agree that a woman of 46 trying to appear 20 is up against an impossible job. It can't be done. But 46 needn't be burdened with the disnity of years. And if some women do mistake garish colors of dress and hosiery for youth, on the other hand you can see, if you take your eye off the plump limbs long enough, just oodles and oodles of nice, refined and highly-desirable girls of 40 dressed in skirts of the current mode. If you keep looking, Male Critic, with an eye unclouded by prejudice, you will see countiess numbers of 40 year olds whose unlined faces, fat-free figures and verve and vitality give the lie to the calendar years, and why not?

NEW YORK.—[Special Correspondence.]—There is no telling just how these designers are going to give a frock the flare. This sketch shows these designers are going to give a frock the flare. This sketch shows you what we mean. Now, who would have ever thought of that—the trick of introducing drapery between two or owns of buttons that run up the right side of the corsage? Yet it is really most effective, especially since the line made by the buttons is continued in a straight band on the skirt.

This is one of those crèpe frocks that adapt themselves to various occasions. Carried out in white or in black, beige or gray crèpe, the model in color, what would be more charming for resort wear? And developed in black, beige or gray crèpe, the model would be equally good for city occasions. This band is of self material. Sittching in matching tint creates the illusion of a jumper in this one piece frock and more stitching is employed on the algeves.
